

Why YuMOVE Advanced Vet Max?

Your vet has recommended **YuMOVE Advanced Vet Max** because they believe your dog may benefit from our strongest joint support. We know starting a stronger supplement can feel like a big step, so we'll guide you through everything you need to know.

What is YuMOVE Advanced Vet Max?

It's our strongest joint support supplement, for dogs who may need our highest level of support. It's 50% stronger* than our next-strongest product and only available through your vet.

How does it work?

YuMOVE Advanced Vet Max contains our unique ActivEase® Complex – a scientifically formulated blend of premium Green Lipped Mussel and Hoki fish. Together, the Omega-3 fatty acids from these ingredients help soothe joints and support comfortable movement.

My dog already takes YuMOVE PLUS Max. What's the difference?

YuMOVE Advanced Vet Max is more than 50% stronger than PLUS Max with higher levels of key ingredients, including our unique ActivEase® Complex.

Do I still need to see my vet?

Yes. YuMOVE Advanced Vet Max is designed to be used alongside regular check-ins with your vet. If your dog is older or has mobility concerns, ongoing veterinary support ensures they get the right care at the right time.

Start strong, carry on

For the best results, follow the daily feeding guidelines. Missing or skipping days may reduce results.

New to YuMOVE? Double the daily recommendation for the first 4-6 weeks. If switching from another YuMOVE product, there's no need to double up.

Ensure fresh water is available at all times.

Feeding tips and tricks

Our tablets can be fed all at once or split across the day. Add them to food or give them by hand as a treat. Most dogs love the taste, but if yours is a little fussy, simply crush them up and mix them into a meal.
