

Why YuMOVE Calming Support?

Your vet has recommended **YuMOVE Calming Support** because they believe your pet may benefit from help to stay calm and feel more relaxed.

What is YuMOVE Calming Support?

YuMOVE Calming Support is a gentle supplement made with natural, scientifically backed ingredients that support the brain's natural pathways to reduce stress and ease anxiety. The range includes an easy-to-feed tablet for dogs, and a twist-and-sprinkle capsule for cats.

How long does it take to work?

All pets are different and some owners report seeing good effects in their pets after just a few days. However, it can take up to 4-6 weeks to see the full benefits. We recommend starting sooner rather than later if you have a specific event in mind.

Can it be given long-term?

Yes. YuMOVE Calming Support can be given on a long or short-term basis, depending on your pet's needs.

Can I give it to my pet alongside a calming diffuser?

Yes, YuMOVE Calming Support can be given alongside using a calming diffuser.

Do I still need to see my vet?

If you have concerns about your pet's wellbeing, we recommend regular check-ins with your vet. Ongoing veterinary support ensures they get the right care at the right time.

Need any help?

Your first point of contact should always be your vet. However, if you have any product questions you can email us at hello@yumove.com

YUMOVE® Calming Support

Gentle support to keep your pet feeling calm and relaxed

Daily support for anxious dogs and cats

YuMOVE Calming Support contains natural, science-backed ingredients to help your pet deal with everyday stresses, such as fireworks, new settings, separation and car travel. For the best results, start feeding it to them at least 4-6 weeks before a specific occasion.

Soothes stress, helps feelings of relaxation & encourages calmer behaviour with **Lemon Balm**

Supports brain health & overall wellbeing with **B Vitamins & Fish Protein Hydrolysates**

GABA & L-Arginine help maintain the calming pathways in the brain to support relaxation

Suitable for dogs age 8+ weeks
and for cats age 10+ months

See a difference or your money back*

YuMOVE Calming Support can help your pet to:

- ✓ Stay settled during everyday changes – from new visitors to vet visits
- ✓ Keep calm when life gets noisy or busier than usual
- ✓ Feel more at ease for big events, such as firework celebrations

Times when your dog or cat may need support:

During fireworks or exposure to other loud noises

If they dislike being alone for short periods of time

In new or unfamiliar environments such as the vet or the car

During introductions to strangers (people or animals)

For holidays or travel

Consistency is key

For the best results, follow the daily feeding guidelines. Missing or skipping days may reduce results.

Size of your dog	Daily amount
XS (up to 7kg)	½ tablet daily
S (8 - 15kg)	1 tablet daily
M (16 - 30kg)	2 tablets daily
L (31 - 45kg)	3 tablets daily
XL (over 45kg)	4 tablets daily

Size of your cat	Daily amount
XS (up to 5kg)	1 capsule daily
L (over 5kg)	2 capsules daily

For the best results, give YuMOVE Calming Support at least **4-6 weeks** before a potentially stressful event. Planning ahead means you and your pet can enjoy their day – whatever's happening around them.
