Why YuMOVE Digestive Care makes a difference?

YuMOVE Digestive Care combines probiotics and our ActivBio™ complex – three different natural prebiotics. These science-backed ingredients can help support good bacteria while keeping the bad ones at bay, and are gentle on dogs with sensitive tummies.

Signs your dog may need digestive support:

Sensitive Tummy

Wind

Frequent Soft Stools

Sudden Loose Stools

Irregular Stool Consistency

Scooting

Please consult your vet if you have any concerns.

YuMOVE Digestive Care Pre & Probiotic

Previously YuDIGEST Dog

Keep their tummy in tip-top shape with this daily probiotic/prebiotic complex to support the natural balance of the canine digestive system. YuMOVE Digestive Care combines scientifically backed ingredients to help dogs with sensitive tummies have a good day, every day.

HELPS PROMOTE GOOD BACTERIA
200 million probiotic bacteria per tablet to help maintain the natural population of health-protecting gut bacteria.

HELPS BLOCKS BAD BACTERIA
Prebiotics MOS, scFOS and Beta-glucans can help to block bad bacteria, by helping promote good bacteria.

HELPS KEEP STOOLS FIRM
The probiotic bacteria and our ActivBio™ prebiotic complex work together to nurture a balanced gut environment to support healthy stool consistency.

Top tip

Remember, you can use **YuMOVE Digestive Care PLUS** or **Rapid** for fast-acting support to help firm sudden loose stools, alongside **YuMOVE Digestive Care Pre & Probiotic**.

Get the best results:
For the best results we strongly recommend always following the daily feeding guidelines for your dog.

Add the following amounts to food daily, or give as a treat.

Size of your dog	Daily amount
SMALL DOGS (up to 10kg)	1 tablet
MEDIUM DOGS (11 - 25kg)	2 tablets
LARGE DOGS (26 - 40kg)	3 tablets
VERY LARGE DOGS (over 40kg)	4 tablets

Available in packs of 120 and 300 tablets.

YuMOVE Digestive Care Probiotic & Fibre

YuMOVE Probiotic & Fibre is made with scientifically backed ingredients that support the natural emptying of anal glands, aid stool consistency and support a healthy digestive system.

SUPPORTS HEALTHY ANAL GLANDS

Contains 53% dietary fibre which can help support the natural emptying of anal glands.

SUPPORTS GUT HEALTH

Each pouch contains 11.9 billion CFUs probiotic bacteria along with prebiotics to support the natural balance of healthy bacteria in the gut.

NO ADDED GRAIN OR WHEAT

Our formula is made from natural ingredients, with no added grain or wheat, and no added gluten, colours, flavours or preservatives.

Top tip

Remember, you can give **YuMOVE Digestive Care Probiotic & Fibre** alongside **YuMOVE Digestive Care Pre & Probiotic** to keep supporting the natural balance of your dog's digestive system.

Get the best results:

For the best results we strongly recommend always following the daily feeding guidelines for your dog.

YuMOVE Digestive Care Probiotic & Fibre is suitable for all dogs. To feed, sprinkle over food daily. You can also mix with 10-15ml of warm water to form a paste, then feed directly. Once mixed with water, feed immediately – don't store. Use half the daily amount for the first 7 days.

Size of your dog	Daily amount
VERY SMALL DOGS (up to 5kg)	1 level teaspoon
SMALL DOGS (6 - 10kg)	2 level teaspoons
MEDIUM DOGS (11 - 25kg)	4 level teaspoons
LARGE DOGS (26 - 40kg)	2 level tablespoons
VERY LARGE DOGS (over 40kg)	3 level tablespoons

1 level teaspoon is 1.5g and 1 level tablespoon is 4.5g.

Available in 180g pouch.

YuMOVE Digestive Care Rapid

YuMOVE Digestive Care Rapid is a supplement paste designed with fast-acting, scientifically backed ingredients to help firm sudden loose stools in dogs and cats. Pectin supports the gut lining, while pre and probiotics help stimulate the growth of good bacteria to help block bad bacteria.

HELPS FIRM STOOLS

Our scientifically backed ingredients help to firm stools and support the digestive immune system.

SUPPORTS RECOVERY AFTER DIGESTIVE UPSET

Pre and probiotics help feed and stimulate the growth of good bacteria to help block bad bacteria.

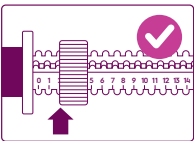

SUPPORTS GUT LINING

Pectin supports the normal function of the gut lining aiding healthy digestive function.

Get the best results:

For the best results we strongly recommend always following the daily feeding guidelines for your pet. YuMOVE Digestive Care Rapid is suitable for all dogs and cats.

Use the graduated markings on the syringe to deliver the correct amount of palatable paste (see diagram showing the correct position for 2ml).

Administer by mouth for as long as considered necessary, for no more than 6 days, or as advised by your veterinary surgeon. Can be given up to 3 times daily, if required. Always ensure access to fresh water. For serious digestive upsets, always consult your vet.

Size of your pet	Daily amount
CATS AND VERY SMALL DOGS (up to 5kg) 	2ml twice a day
SMALL DOGS (6 - 15kg) 	3ml twice a day
MEDIUM DOGS (16 - 30kg) 	5ml twice a day
LARGE DOGS (26 - 35kg) 	6ml twice a day
VERY LARGE DOGS (36 - 45kg) 	8ml twice a day
EXTRA LARGE DOGS (over 45kg) 	10ml twice a day

Top tip

Keep a supply of **YuMOVE Digestive Care Rapid** in the cupboard in case your dog has a sudden bout of loose stools. Rapid can be used alongside all other **YuMOVE Digestive Care** products, except **YuMOVE Digestive Care PLUS**.

Available in packs of 15ml, 30ml and 60ml tubes.

YuMOVE Digestive Care PLUS for Dogs and Cats

Previously YuDIGEST PLUS

High-strength complex packed with gut-supporting natural ingredients to support digestive balance and help firm sudden loose stools.

HELPS FIRM STOOLS

With absorbent Bentonite to aid in normal stool quality/consistency, for dogs with loose stools.

SUPPORTS GUT LINING

Threonine is an essential amino acid that helps support the gut lining, promoting healthy digestion.

ENCOURAGES HEALTHY DIGESTION

Linseed meal provides a natural source of fibre, lignans and antioxidants which can support healthy digestion.

HELPS MAINTAIN THE NATURAL GUT BALANCE

The combination of one billion probiotic bacteria and our ActivBio™ prebiotics complex, found in each sachet, can help to block bad bacteria by helping promote good bacteria.

Top tip

Remember, if your dog has a sensitive stomach, you can use **YuMOVE Digestive Care PLUS** alongside **YuMOVE Digestive Care for Dogs** for more support with your pet's digestive health.

Get the best results:

For the best results we strongly recommend always following the daily feeding guidelines for your pet.

Sprinkle over food daily, following the guidelines below. If no improvement is seen in 3-5 days we recommend seeking veterinary advice.

You can also mix with 10-15ml of warm water to form a paste, then feed directly. Once mixed with water, feed immediately – don't store. Ensure fresh water is available at all times.

Size of your pet	Daily amount
SMALL DOGS AND CATS (up to 5kg)	½ sachet
MEDIUM DOGS (6 - 15kg)	1 sachet
LARGE DOGS (16 - 35kg)	2 sachets
VERY LARGE DOGS (over 35kg)	3 sachets

Available in packs of 6 and 60 sachets.
