## Keeping tummies happy, healthy and comfortable

# Supporting happy tummies

**Whether your pet needs short-term support after a digestive upset or daily help to keep their tummy on track, YuMOVE Digestive Support offers a range of options for cats and dogs.**

Made with scientifically backed ingredients, including Prebiotics and Probiotics, each product is carefully designed to meet their digestive needs so that every day is a good tummy day.

## Rapid Powder

- **Who it's for:** Cats and dogs

- **What it's for:** Stool consistency
- **When to use:** Daily

## AVS Anal Gland Health Chews

- **Who it's for:** Dogs only
- **What it's for:** Anal gland health
- **When to use:** Daily

## Has your vet recommended YuMOVE Rapid Powder or Rapid Paste after a sudden bout of loose stools?

Used alongside their guidance, both products support your pet's digestive system so they can feel themselves again. If digestive upsets are happening more often, daily gut support may help. Speak to your vet today to find out how YuMOVE Pre & Probiotic tablets could help in the long run.

## What's the difference between Rapid Paste and Rapid Powder?

Both products help firm loose stools and support digestive recovery. The powder can be added to food or mixed with water to form a paste, while the ready-made paste comes in an easy-to-administer syringe which can be fed directly into the mouth.

## What's the difference between Pre & Probiotic and Probiotic & Fibre?

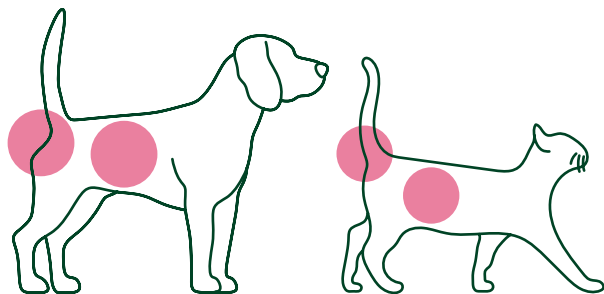

They sound similar, but do different things. Pre & Probiotic is a daily gut-support tablet for dogs, including those with sensitive tummies. Probiotic & Fibre is a powder food topper that aids stool consistency and support anal gland health.

## Can I give digestive supplements to my pet alongside their regular food?

Yes. The YuMOVE Digestive Support range is suitable for use alongside your pet's regular food.

# Rapid Powder

This high-strength complex is packed with gut-supporting natural ingredients to help firm sudden loose stool and support digestive balance.

A unique combination of **Pre & Probiotic** & **Beta-glucans** helps firm loose stools & re-establish healthy gut balance

**Linseed meal** provides a natural source of fibre, rich in lignans & antioxidants to support healthy digestion with less wind

**Threonine** is an essential amino acid that supports the gut lining

**Suitable for dogs & cats age 8+ weeks**

## Get the best results

Sprinkle over food following the recommended feeding guidelines. If no improvement is seen in 3-5 days, please speak to your vet.

| Size of your pet                                                                                          | Daily amount                                                                                |
|-----------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------|
|  <b>Cats</b> (up to 5kg) |  sachet  |
|  <b>Dogs</b> (up to 5kg) |  sachet  |
|  <b>Dogs</b> (6 - 15kg)  |  sachet  |
|  <b>Dogs</b> (16 - 35kg) |  sachets |
|  <b>Dogs</b> (over 36kg) |  sachets |

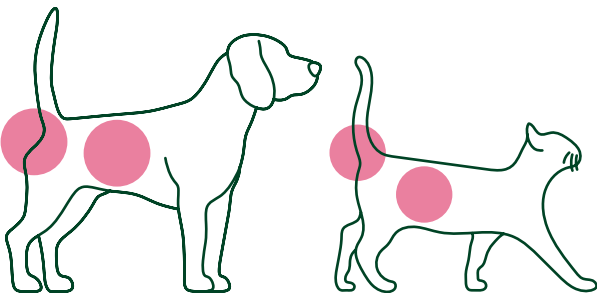

## Feeding tip

You can mix Rapid Powder with 10-15ml of warm water to form a paste, then feed directly. Once mixed, feed immediately and don't store. Always ensure access to fresh water.

# Rapid Paste

Fast-acting, scientifically backed ingredients help firm loose stools and help maintain the natural population of healthy gut bacteria.

Helps **firm stools** & supports the digestive immune system

Helps soothe & support the gut lining to aid healthy digestive function with **Pectin**

**Pre & Probiotics** help nurture the growth of good bacteria & help block bad bacteria to support recovery after digestive upset

**Suitable for dogs & cats age 8+ weeks**

## Get the best results

Use the graduated markings on the syringe to deliver the correct amount of paste following the recommended feeding guidelines.

| Size of your pet                                                                                          | Daily amount            |
|-----------------------------------------------------------------------------------------------------------|-------------------------|
|  <b>Cats</b> (up to 5kg) | <b>2ml twice a day</b>  |
|  <b>Dogs</b> (up to 5kg) | <b>2ml twice a day</b>  |
|  <b>Dogs</b> (5 - 15kg)  | <b>3ml twice a day</b>  |
|  <b>Dogs</b> (16 - 30kg) | <b>5ml twice a day</b>  |
|  <b>Dogs</b> (26 - 35kg) | <b>6ml twice a day</b>  |
|  <b>Dogs</b> (36 - 45kg) | <b>8ml twice a day</b>  |
|  <b>Dogs</b> (over 45kg) | <b>10ml twice a day</b> |

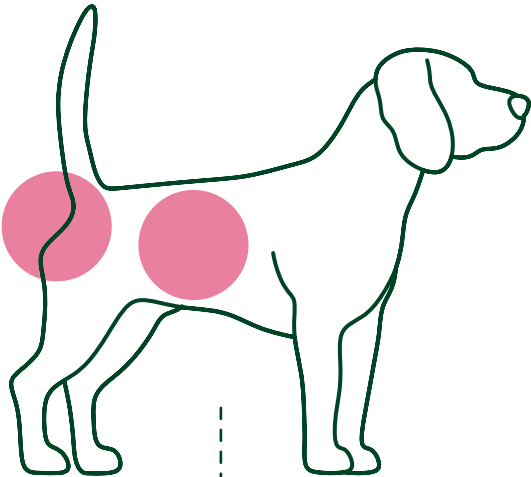

## Feeding tip

Feed by mouth for no more than 6 days, or as advised by your vet. Can be given up to 3 times a day. Always ensure access to fresh water.

# Pre & Probiotic

Our scientifically backed ingredients help keep your dog's digestion on track for more tummy rubs and fewer tummy worries.

**MOS, FOS, & Beta-glucans** support your dog's immune system & wellbeing from top to bottom

Helps support digestion so dogs feel their best every day with **ActivBio® complex**

**Pre & Probiotics** nurture good bacteria & help block bad bacteria, for a balanced gut & easy-to-scoop poop

**Suitable for dogs age 12+ weeks**  
**See a difference or your money back<sup>+</sup>**

## Consistency is key

For the best results, follow the daily feeding guidelines. Missing or skipping days may reduce results.

| Size of your dog      | Daily amount     |
|-----------------------|------------------|
| <b>S</b> (up to 10kg) | <b>1</b> tablet  |
| <b>M</b> (11 - 25kg)  | <b>2</b> tablets |
| <b>L</b> (26 - 40kg)  | <b>3</b> tablets |
| <b>XL</b> (over 40kg) | <b>4</b> tablets |

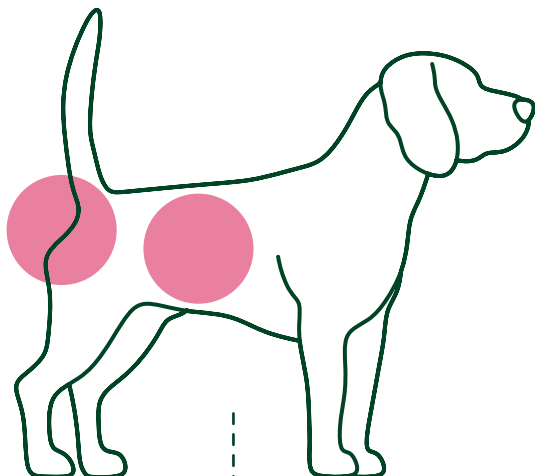

## Feeding tip

Add the tablets to your dog's food or feed by hand as a treat. Always ensure access to fresh water.

# Probiotic & Fibre

Our high-fibre food topper helps keep stools consistent and everything moving smoothly.

Contains **soluble & insoluble fibre** to support regular bowel movements

This **high-in-fibre** formula helps keep stools solid for easy pick-ups during walks

Supports digestive health & general wellbeing with a science-backed **Probiotic**

Suitable for dogs age 12+ weeks  
See a difference or your money back<sup>+</sup>

## Consistency is key

For the best results, follow the daily feeding guidelines. Missing or skipping days may reduce results. **Use half the daily serving for the first 7 days.**

| Size of your dog      | Daily amount               |
|-----------------------|----------------------------|
| <b>XS</b> (up to 5kg) | <b>1</b> level teaspoon    |
| <b>S</b> (6 - 10kg)   | <b>2</b> level teaspoons   |
| <b>M</b> (11 - 25kg)  | <b>4</b> level teaspoons   |
| <b>L</b> (26 - 40kg)  | <b>2</b> level tablespoons |
| <b>XL</b> (over 40kg) | <b>4</b> level tablespoons |

1 level teaspoon is 1.5g and 1 level tablespoon is 4.5g.

## Feeding tip

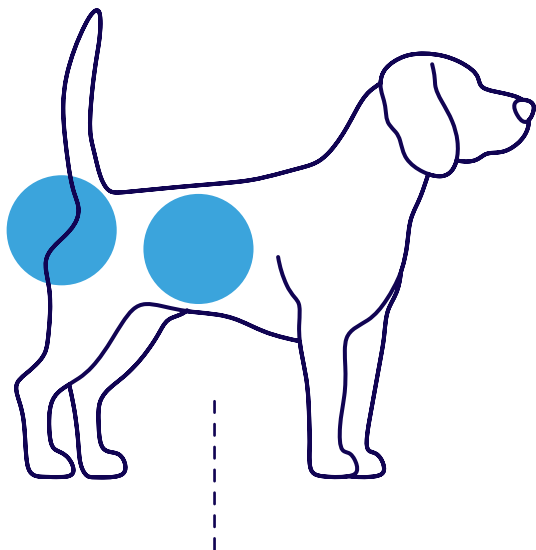

To feed, sprinkle over food. You can also mix with 10-15ml of warm water to form a paste, then feed directly. Once mixed with water, feed immediately – don't store.

# Glandex® AVS

## Anal Gland Health

By supporting the digestive tract and anal gland health, Glandex Advanced Vet Strength chews help 'boot the scoot' and can help reduce the need for manual expressions.

A blend of **soluble and insoluble fibre**, from **pumpkin seed** and **apple pectin**, helps aid stool consistency and maintain healthy digestive function

**Prebiotics and Probiotics** help promote the population of good bacteria in the gut's microbiome that supports the immune system

**Fibre** bulks and firms stools to help naturally express the anal glands — supporting this normal function helps reduce scooting and licking

### Consistency is key

For the best results, follow the daily feeding guidelines. Missing or skipping days may reduce results. **Use half the daily serving for the first 5-7 days.**

| Size of your dog      | Daily amount   |
|-----------------------|----------------|
| <b>XS</b> (up to 7kg) | <b>½</b> chew  |
| <b>S</b> (7 - 11kg)   | <b>1</b> chew  |
| <b>M</b> (12 - 23kg)  | <b>2</b> chews |
| <b>L</b> (24 - 34kg)  | <b>3</b> chews |
| <b>XL</b> (over 34kg) | <b>4</b> chews |

### Feeding tip

These tasty chews can be added to your dog's food or fed by hand as a treat. Always ensure access to fresh water.
